Time: 8:30 am till 3 pm

STEM EDUCATION

**Building Partnerships:
For our Children and
the Future of our Nation**

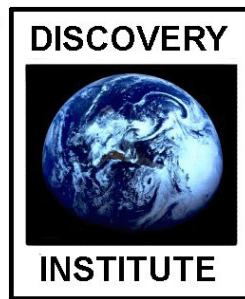

Central Coast STEM Education Forum

Science, Technology, Engineering, and Math education are critically important to our economy and are critically challenged. Our community has a wide variety of groups that are active proponents and stakeholders in STEM education. Each group will benefit by understanding the activities, resources, and capabilities of others. We need to network, collaborate and partner together to realize our objectives.

Highlights

- ◆ Co-Keynote Speakers:
 - [Lt. Gen. Susan Helms](#) Commander of 14th Air Force, Vandenberg AFB and NASA Astronaut with 211 days in space
 - [Chris Roe](#): CEO, California STEM Learning Network (CSLNet) and former Deputy Director, Business-Higher Education Forum (BHEF), Wash. D.C.
- ◆ Develop a STEM Coalition
- ◆ Create a Networking Clearinghouse
- ◆ Build Business/Education/Community Partnerships
- ◆ Lunch included

CALIFORNIA
